A Cisco Meraki Solution

Who is Cisco Meraki?

Cisco Meraki, is one of the industry's largest-scale cloud networking services, originally founded in 2006 and acquired by Cisco® in 2012.

With over 3 million customer networks, the Cisco Meraki cloud architecture continues to grow and scale. With built-in redundancy and advanced security features, it delivers reliability, security and scalability, with a 99.99 percent uptime SLA.

What makes Cisco Meraki different?

The Meraki cloud grows with your organisation and helps enable secure monitoring and management of your network from any location in the world. The Meraki cloud dashboard is browser-based, meaning you can access it from almost any device without the need for software, or plug-ins. Additionally, network integration provides easy management not only for your cloud-managed security cameras, but also for wireless, switching, security and endpoint management – all from a single pane of glass.

The Cisco Meraki Portfolio

Wireless

Easy-to-manage, fast and dependable Wi-Fi to support your business.

Security and SD WAN

Protect and securely connect what matters most, regardless of location.

Cameras

Protect your people and assets with intuitive video and analytics.

Sensors

Protect critical IT infrastructure with real-time visibility into environmental conditions.

Mobile Device Management

Remote monitoring and identity-based configuration for all your devices.

Switching

Uncompromising performance and reliability at the heart of your network.
